

North Fond du Lac Police Department

Bullying: Protective Behaviors for Kids and Parents

Tuesday, April 3, 2007 from 6:30 to 7:30p.m.
Horace Mann High School Auditorium
325 McKinley Street, North Fond du Lac

We sometimes see bullying as an inevitable part of childhood. As we watch children being crushed by bullying, we often feel powerless to change it. Childhood bullies are more likely to become young adult criminals than are non-bullies. Bullied children may grow up with diminished self-confidence.

Elizabeth Van Abel, MA, an ASTOP prevention educator and Confidential Assistance Program Counselor, will discuss the negative impact of bullying behavior and what can be done about bullying.
